

engage

A PROGRAMME BY RURAL LEADERS

Growing world-class leaders for our country

Developed with

And with support from

3 day introduction to agriculture

2 farm field trips

! Multiple 'aha' moments

Your Food and Fibre Sector 101.

The **Engage Programme** was designed and developed by **Rural Leaders** in conjunction with **Lincoln University**, and with support from the Ministry for the Environment.

Engage is as much for those without a background in agriculture as it is those who seek to refresh their sector knowledge. It is particularly suited to people entering, or connecting with, the Food and Fibre Sector in advisory, regulatory, or farmer-focused policy roles.

Engage equips participants with the skills and understanding to succeed and the confidence to engage with food and fibre stakeholders. This 3-day immersive introduction helps participants develop a deeper understanding of the NZ Food and Fibre Sector and how it is connected to the global economy.

What will you get?

- A deeper understanding of NZ food and fibre and the global context it operates within.
- Two half-day field trips to working farm operations.
- Build a connection with a valuable network of food and fibre professionals.

Grow your know-how on

- NZ farming systems.
- NZ agri markets, challenges, NZ trade opportunities.
- The regulatory and policy environment.
- Māori land ownership/perspectives.
- Rural communities and their wellbeing.
- Farm environmental consulting/farmer policy support.
- Implementation of insights into a work context.

Cost/dates

\$500 +GST per participant (part-funded by Ministry for the Environment). **Programme runs Wednesday 30 Oct. to Friday 1st Nov. 2024, and is facilitated by [Dr Scott Champion](#).**

Ready to grow your knowledge, skills and confidence in agriculture?
